

# BASS PHYSICS

## BIO

Bass Physics is a Denver-based producer named Arja Adair who has one objective in mind: to spread positive vibes through the power of music. His impassioned sound emulates a revolutionary style of electronic music which captures the audience on an emotional level while cultivating a live instrumental experience. With stylistic variations of electronic rock, soulful funk, hip-hop and melodic bass, Arja unceasingly executes a unique and captivating performance that leaves you wanting more.

Bass Physics has made waves in the national music scene with appearances at Electric Forest, Euphoria, Decadence NYE and at Colorado's legendary Red Rocks Amphitheater. After multiple nationwide tours and international dates, Bass Physics will be playing alongside Pretty Lights at his destination festival "Island of Light" December of 2017.
